

A tall, narrow, grey material lift with a large platform extended outwards. The lift is set against a background of a dark grey diamond plate pattern. The lift's side panels are made of stainless steel with a diamond plate texture, and the platform is also covered in diamond plate. The lift is shown in a slightly angled perspective, highlighting its height and the size of the platform.

M-1504 Material Lift

Durably constructed with 60" clad stainless steel side guards and diamond plate covered stainless steel flooring

Larger platform than a dumbwaiter and easy to install

Carries up to 1000 lb

Meet the muscle

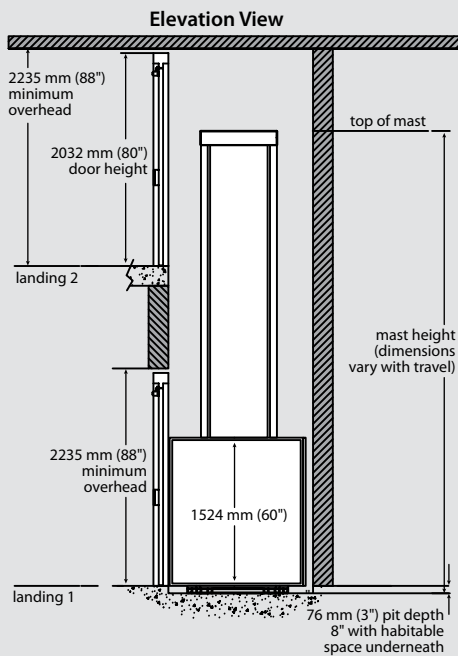

The Savaria M-1504 material lift is a commercial freight lift ideal for restaurants, banquet halls, retail stores, veterinary clinics and small industrial businesses. Use this lift to carry freight up to 1000 lb. The M-1504 is built for durability with 60 inch clad stainless steel side guards and diamond plate covered stainless steel flooring.

Intended for use inside a shaftway, the unit can be ordered in a choice of standard sized platforms or custom sized. Call stations at each floor control this freight-only hydraulic lift. The M-1504 lift by Savaria delivers a great package of simplicity, handy features and the muscle you need to keep your material moving.

Savaria® M-1504 Material Lift

- 1000 lb capacity ideal for moving freight such as boxes, wheeled carts, kegs and more
- Durable construction with 60" clad stainless steel side guard panels, diamond plate covered stainless steel flooring and gray powder coat finish
- Flexible platform sizes available from a minimum of 24" x 33" up to 48" x 60"
- Reliable hydraulic operation with drive system housed in support tower and no machine room required for easy, space-saving installation
- Constant pressure operation with optional automatic operation available (code permitting), servicing up to 4 stops
- Designed for hoistway applications with call/send buttons, configure exit/entry for same side, straight through, or 90° access
- Manual lowering in case of power failure, battery lowering system, safety brake and emergency stop buttons
- Optional: 80" side guard panels, automatic operation (B20.1 code) and battery backup to allow full functionality of the lift for emergencies
